18 - What aspects of the course and/or Colin Adams's instructional methods have you found the most useful or valuable for learning? Please give examples. -

Response Rate	3/31 (9.68%)

• He taught very well and explained things very clearly, not trying to rush through the curriculum but instead making sure everyone would understand what we were learning.One of the best instructors Ive had at fsu.

• Very accessible and has had great office hour chats with me, and follows up with emails pertaining to our conversation topics which pushes me to chase my goals further. Additionally, he effectively connects with us through personal anecdotes and his interests, bringing up relatable stories that invite humor into the space. Lastly, he can explain the material in layman terms, mathematically, and conceptually which absolutely stimulates my interest for everything economics; I'm concentrating in economics because of this course!

• I found it helpful that he writes out all of notes and uses visual explanations to make concepts easier to understand.

19 - What aspects of the course and/or Colin Adams's instructional methods could be improved that would enhance your learning? Please give examples. -

Response Rate	2/31 (6.45%)

• Honestly he taught perfectly for me, he also had some engaging exercises that were used as examples on how things worked which i thought was very interesting. Theres nothing he couldv'e done more. Provided everything needed and more to pass the class.

• Colin has great mastery of the material. One method that could be improved would be speaking slower through the material. Though I know it is a daily Summer A class, a bit more breath in his teaching would help me audibly understand the material more.

20 - Please list additional comments and/or suggestions.

Response Rate	1/31 (3.23%)

• He's great! I calculated the opportunity cost of taking this class, and it turns out there wasn't a better option! :-D
